

The office of Student Affairs has put together a housing guide on our website to give incoming students information regarding relocation to the Miami area, as we do not offer on campus housing options.

The NWSA campus is located in downtown Miami. The "ambiance" in downtown is strictly urban. The rent and availability of space can change quickly.

The following is a list of apartments that current or former NWSA students have rented. This list is not exhaustive, so students should plan to research housing not listed here as well. Also listed are transportation options to/from Downtown Miami.
